WL-SCPB Series self-Priming Pump With Hair And Lint Strainer

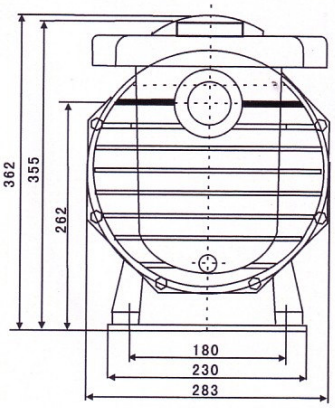

All components of WL-SCPB Series Self-Priming Centrifugal Pumps are designed for maximum performance and economy in a swimming filtration system.
These pumps are suitable for swimming pools and spa pools with hair strainer complete to body

- Easy to service. Easy Access compartment at rear of motor permits easy installation, testing and service. Power, capacitor, protector and other key components can be checked without removing motor from pump assembly.
- All components moulded of rugged, corrosion-proof fiberglass filled resin for extra durability and long life. This material gives high strength and heat resistance characteristics and is immune to all types of pool chemicals and water.
- Plastic components are moulded from a glass-filled polymer of strength, durability and trouble-free operation.
- Close tolerance diffuser and impeller provide top performance while maintaining pressure over a wide flow range
- Full-View strainer cover lets you see when basket needs cleaning... Eliminates guesswork.
- Heat resistant, industrial size ceramic seal. Long wearing and 100% drip proof. For fresh or salt water use.
- Totally balanced, high-head impeller provides high-volume output to accommodate even the most demanding installations.
- 1 Year Manufacturer's Warranty.

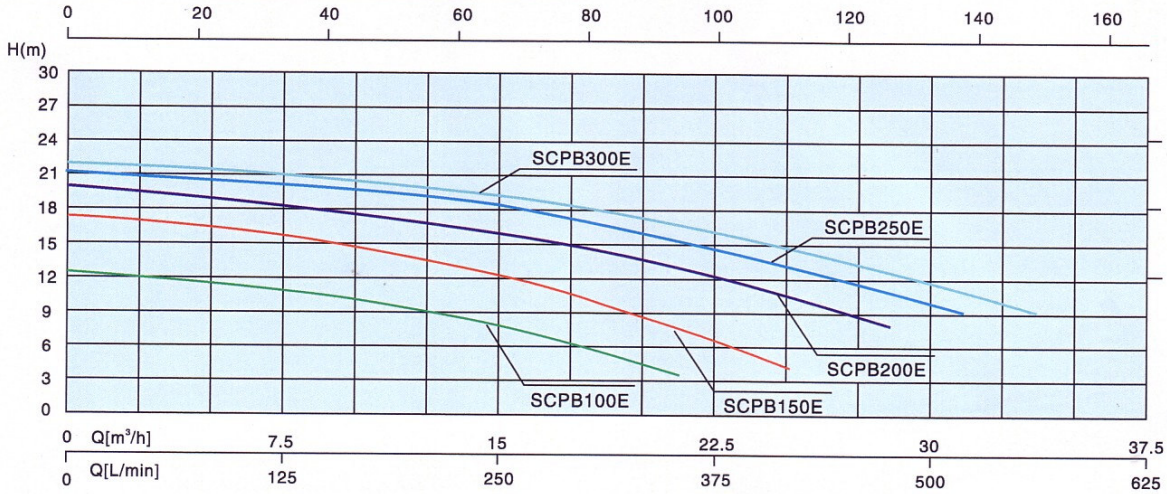

Installation Guide

Model	Horsepower (HP)	Voltage (V)	Inlet Port Dia. (Inch)	Outlet Port Dia. (Inch)	Qmax (L/min)	Hmax (m)	L
WL-SCPB100E	1.0	220	2	2	358	12.2	635
WL-SCPB150E	1.5	220	2	2	418	17.3	635
WL-SCPB200E	2.0	220	2	2	465	20.0	635
WL-SCPB250E	2.5	220	2	2	505	21.0	635
WL-SCPB300E	3.0	220	2	2	550	22.0	635
